Hi Claudio,

It is up to the account holder to ensure that all of their content is in line with Vimeo's Terms of Service.

Please review our Terms here: vimeo.com/terms.

Deve Jeff,

Kindly provide us with a list of video that you think are violating Vimeo OTT policies, so we can review them. As you stated that you found violations, I am sure you already have a sort of list.

Please notice that we are an established news organization in Italy and have regular government licenses to broadcast on Italian television (channel 262, broadcasted in the whole country). We respect Italian laws and we never received any complaints from our institutions.

Awaiting for some details concerning your claims, please accept our best regards.

Sincerely,
Claudio Messoria
Byoblu Edizioni Srls
CEO

Hi there,

We're reaching out because there are multiple videos in your Vimeo OTT account that violate our content policies. We do not allow health-related content that might cause people to take dangerous or unproven treatments or refrain from taking indicated precautions or treatments that the U.S. Centers for Disease Control and Prevention (CDC) or World Health Organization (WHO) recommend. We also do not allow claims that an epidemic or pandemic (such as COVID-19) is a conspiracy.

Specifically, your Vimeo OTT account contains videos that:

- Convey false or misleading health-related information that has a serious potential to cause public harm;
- Perpetuate false or misleading claims about vaccine safety;
- Falsely claim that mass tragedies (such as the Coronavirus pandemic) are hoaxes; and/or
- Assert conspiracy theories that spread, among other things, hate speech, defamation, or false or misleading vaccination or health-safety content. (We have banned Qanon content for this reason.)
